CB Supplies – Coronavirus COVID-19 Announcement

To our valued customers

Due to the recent outbreak of the coronavirus COVID-19, CB Supplies has directed its sales force not to make in-person visits until further notice. Our sales team will continue to work from home by phone and email.

Our production plant, warehouses and offices across Canada remain open.

Our suppliers report that they have been able to weather the storm so far, with only relatively minor disruptions expected. CB Supplies maintains average inventory levels of more than 3 months stock across the company, so while we are monitoring the situation very closely, we remain cautiously optimistic that our business operations will continue uninterrupted.

Thank you for your continued support during these challenging times.

Sincerely,

Warren Lowe

President
