

MATERIAL SPECIFICATION SHEET

Threaded Rod

SCOPE:

Technical Data for Threaded Rod distributed by CB Supplies Ltd.

MATERIAL:

Zinc Plated steel; Grade 2

PROPERTIES:

Tensile Strength: 43,500 psi (max.)
Thread Angle: 38° - 42°
Zinc Plating Thickness: 3 – 5 µm

Available Sizes:

SIZE	THREADS PER INCH	LENGTH (Ft.)	QUANTITY PER BUNDLE
1/4"	20	10	50
3/8"	15	10	25
1/2"	13	10	20
5/8"	11	10	10
3/4"	10	10	5

USES:

It is the End User's responsibility to evaluate the suitability of Threaded Rod for the application for which it is to be used and determine if the tensile strength of the Threaded Rod is sufficient to meet the stresses applied by the application.
